Work History

Full-Stack Developer & DevOps Engineer Sep 2021 – Jun 2025

North Sea Parts | Marcos Highway Antipolo City, Metro Manila, Philippines

Reviewed code, debugged problems, and corrected issues.

Developed functional databases, applications, and servers to support websites on back-end.

Integrated third-party APIs to enhance functionality and improve overall user experience.

Reduced page load times by optimizing front-end assets.

Worked with back-end developers to design APIs.

Used NodeJS, SQL/No-SQL to develop and manage databases.

Discussed project progress with users and addressed concerns directly.
